Description :

PDF-97c90 | The micro:bit, a tiny computer being distributed by the BBC to students all over the UK, is now available for anyone to purchase and play with. Its small size and low power requirements make it an ideal project platform for hobbyists and makers. You don't have to be limited by the web-based programming solutions, however: the hardware on the board is deceptively powerful, and this book will teach ... *Getting Started with the micro:bit: Coding and Making with the BBC's Open Development Board (Make)*
